

# Ouverture de l'appli

The screenshot shows a software window titled "Range" with a standard Windows-style title bar (minimize, maximize, close buttons). The main content is a 13x13 grid of buttons representing poker hands. The hands are arranged in descending order of rank: AA, AKs, AQs, AJs, ATs, A9s, A8s, A7s, A6s, A5s, A4s, A3s, A2s in the top row, and 22 in the bottom-right corner. The grid uses a color-coding system: green for premium hands (AA, KK, QQ, JJ, TT, 99, 88, 77, 66, 55, 44, 33, 22), yellow for mid-range hands, and grey for low-value hands. Below the grid is a "Choice" section with four radio buttons: "Open Raising", "3-Bet", "BB 3-Bet", and "BB Call". Underneath are four columns of strategy options, each with a "Save" button:

- Open Raising:** Radio buttons for UTG, MP, CO, BU, SB.
- 3-Bet Vs PFR:** Radio buttons for 5%, 10%, 15%, 20%, 30%, 35%, 40%, 45%, 50%.
- BB Defence 3-Bet:** Radio buttons for 10%, 15%, 20%, 25%, 30%, 35%, 40%, 50%.
- BB Defence Call:** Radio buttons for 10%, 15%, 20%, 25%, 30%, 35%, 40%, 50%.

# En fonction du choix cocher: verrouille et déverrouille la bonne GrouBbox

The image shows a software window titled "Range" with a grid of 132 poker hands (13 rows by 12 columns). The hands are color-coded: green for selected, yellow for unlocked, and grey for locked. The selected hands are AA, KK, QQ, JJ, TT, 99, 88, 77, 66, 55, 44, 33, and 22. Below the grid, there are four main sections for configuration:

- Choice:** Radio buttons for "Open Raising" (selected), "3-Bet", "BB 3-Bet", and "BB Call".
- Open Raising:** Radio buttons for UTG, MP, CO, BU, and SB, with a "Save" button.
- 3-Bet Vs PFR:** Radio buttons for 5%, 10%, 15%, 20%, 30%, 35%, 40%, 45%, and 50%, with a "Save" button.
- BB Defence 3-Bet:** Radio buttons for 10%, 15%, 20%, 25%, 30%, 35%, 40%, 45%, and 50%, with a "Save" button.
- BB Defence Call:** Radio buttons for 10%, 15%, 20%, 25%, 30%, 35%, 40%, 45%, and 50%, with a "Save" button.

Lors du 1 er lancement de l'application, je coche l'un des RadioButton pour changer la couleur de certains boutons

Si je clic sur « Save », je veux sauvegardé le « bgcolor » de chaque boutons dans fichier XML de type « Open\_Raising\_UTG.XML »  
je fais ca pour chaque RadioButton de chaque GroupBox

## Quand je Redémarre l'application

lorsque je coche l'un des RadioButton je veux qu'il ouvre le fichier de sauvegarde lui correspondant afin de me réafficher les « Backcolor » des boutons sauvegarder

Si je change d'autre couleur et que je clic sur Save , je veut écrasé le fichier lui correspondant(ici le fichier « Open\_Raising\_UTG.XML ») et ça pour chaque RadioButton de chaque GroupBox
