OBJECTIVE

Motivated to travel abroad for a three-month internship in programming (mobile, web or applicative development). Eager to learn new technologies, cultures and also to meet new people. Glad to contribute my skills, enthusiasm and motivation to a dynamic company.

EXPERIENCE

THIRD YEAR PROJECT IN NANTES (FRANCE 2011-2012) - STUDENT — **Php, Facebook API**

(6 month) This project is part of the Polytech program, the objective was to discover communities via on-line social networks (Facebook and Twitter). Learned project management basics and how to use the Facebook API and dealt with the representation of huge directed graphs.

INTERNSHIP IN GUER - BMS (FRANCE 2011) - INTERN — **Python, Javascript**

(2 month) Web-based software suite that helps companies to generate custom and dynamic dashboards for decision support. Developed with the "Web2py" framework (v1.99.2) for the server side and sencha ExtJs 4 for the web-client.

INTERNSHIP IN SIEGEN - MODULBÜRO (GERMANY 2010) - INTERN — **iOS, Objective-C**

(2 month) Worked as an iOS developer on an iPhone application in a team made of designers and engineers. The purpose of this mobile application was to allow people to learn and practice knitting via their iPhones. Learned the core principles of mobile programming on iOS 3 like user interface (interface builder), memory management (with XCode) and client-server communication.

SECOND YEAR PROJECT IN LANNION (FRANCE 2010) - STUDENT — **C++, Gtk**

(6 month) Created a software of building site map management, which permits companies take dynamics measurements or have a full view of the building-site state. The concrete objective was to display in a very simple user interface made with Gtk, the graphical entities (circles, lines, etc.) saved in a Dxf file. Dxf files are generated by mostly every conception-aided software such as "Autocad" by Autodesk.

HANDLING AT UPS, LAPOSTE, RENNES (FRANCE 2010) - WORKER — **Teamwork, Effectiveness**

(2 month) Worked as an handler of ''colis postaux''. Learned how to work effectively with flexibility and under pressure because time mattered in the field of ....

CLEANER AT PLASTIC OMNIUM IN GUICHEN (FRANCE 2008) - WORKER

(7 month) Cleaned the floor and machines on time. This work was one day a week.//Notfinnishedyet

COMPUTER SKILLS

PROGRAMMING LANGUAGES

Python, Java, C/C++, Objective-C, Bash, PL SQL, Php, javascript

FRAMEWORKS AND APIS

iPhone SDK, Facebook API, web2py (python), Qt. Also different Api's to handle datas like JSON, XML or Graphstores.

CONCEPTUAL MODELING

Merise, UML

LANGUAGES

English : working knowledge, Toeic score : 935 (3/2011).
Spanish : Basics.

EDUCATION

2010-Present : Graduate School of Engineering of the University of Nantes (France) specializing in computer science /business intelligence.

2008-2010 : A two-year diploma in computing done at the Institute of Technology in Lannion (France). Core subjects were programming, system analysis and databases.

2007-2008 : Baccalauréat with honours (équivalent to A levels with special emphasis in mathematics, physics and sciences).
